

CHALLENGE GAMES DISCO

Note: For those schools not using OneSchool, this template is to be used in combination with the <u>Curriculum Activity</u> <u>Risk Planner</u>. If a CARA activity guideline exists for the activity, the minimum requirements outlined in it must be followed.

Activity Description: CHALLENGE GAMES – Disco				
Teachers/Leaders: The Challenge Games Committee				
Class groups: Various schools from	No. of students (approx): 200			
Start date: 31/07/2019	Finish Date: 31/07/2019	Supervision ratio (approx): Schools to provide supervision as well as committee members and security		

Use this risk assessment matrix as a guide to assess the inherent risk level. Refer to the <u>Curriculum Activity Risk Planner</u> for further details.

Likelihood	Consequence					
Likeiiilou	1 - Insignificant	2 - Minor	3 - Moderate	4 - Major	5 - Critical	
5 - Almost Certain	Medium	Medium	High	Extreme	Extreme	
4 - Likely	Low	Medium	High	High	Extreme	
3 - Possible	Low	Medium	High	High	High	
2 - Unlikely	Low	Low	Medium	Medium	High	
1 - Rare	Low	Low	Low	Low	Medium	

Indicate the assessed risk level and undertake the actions required for that level of risk.

Inherent risk level		nt risk level	Action required/approval		
	Low	Little chance of incident or injury	☐ Manage risk through regular planning processes.		
V	Medium	Some chance of an incident and injury requiring first aid	 ☑ Document risks and controls in regular planning documents ☑ Manage risk through regular planning processes. ☑ OR complete this Curriculum Activity Risk Assessment. 		
□ A Curriculum Activity Risk A □ Principal or head of program required prior to conducting □ Parent/carer consent is reco □ Once approved, activity deta		significant incident and injury requiring	 Principal or head of program (i.e. DP, HOD, HOSES) approval is required prior to conducting this activity. Parent/carer consent is recommended. 		

Inherent risk level		nt risk level	Action required/approval
	Extreme	High chance of a serious incident resulting in highly debilitating injury	 ☑ Consider conducting an alternative activity or modifications to the activity that could achieve comparable learning outcomes. ☑ A Curriculum Activity Risk Assessment must be completed. ☑ Principal approval is required prior to conducting this activity. ☑ Parent/carer consent must be obtained for student participation. ☑ Once approved, activity details are to be entered into the School Curriculum Activity Register.

NOTE: If the activity is to be held off-site, parent/carer consent is required irrespective of the inherent risk level. Refer to the School Excursions procedure for the Excursion Planner template.

Minimum supervision

- Adequate adult supervision must be provided. A broad range of variables will affect your decision about what constitutes adequate supervision, for example, the:
 - o nature of the activity conducted
 - number of students/size of groups, if more than one group
 - o needs of students and their expected capabilities (e.g. age, experience, competence, fitness)
 - leader's competence and experience
 - o planned duration of the activity
 - o suitability and availability of equipment
 - environmental and weather conditions
 - o difficulties/distance/condition of the venue/site of the activity (e.g. trails, vehicle tracks, roads)
 - remoteness of the activity
 - o likelihood of leader becoming incapacitated or separated from participants.
- If an adult other than a registered teacher is engaged for instruction, a teacher should be present to take overall responsibility. Blue Card requirements must be adhered to.

Provide information about supervision:

Each school provides supervision of students from outside of Townsville. All students are signed in and signed out by parent / caregiver. Committee members to be on duty throughout the disco to supervise toilets and entry point.

Security to be provided by a security company for surrounding grounds.

Minimum activity-specific qualifications for supervisors

Relevant qualifications will depend on the nature of the activity, but as a minimum:

- there are sufficient adults with current First Aid qualifications including Cardio Pulmonary Resuscitation (CPR) or ready access to first aid facilities, including qualified personnel
- if operating more than one hour away from Emergency Services, an adult with a current Remote Area First Aid qualification is present
- consider whether 'competence' (knowledge and skills to safely carry out the activity) is sufficient for the activity leader rather than a formal qualification. A teacher/leader could demonstrate competence by two or more of the following:
 - knowledge of the activity and the associated hazards and risks
 - o experience (i.e. previous involvement) in undertaking the activity
 - demonstrated ability and/or expertise
 - possession of relevant qualifications.
- if the activity is being conducted by external leaders, obtain a copy of relevant qualifications and risk management information.

Uncontrolled copy. Refer to the Department of Education and Training Policy and Procedure Register at http://ppr.det.qld.gov.au to ensure you have the most current version of this document. Page 2 of 6

Consider the equipment and facilities required for the activity. Depending on the nature of the activity, this may include: First Ald kit (including sufficient and suitable bandages, ice packs, etc as appropriate) communication equipment e.g. phone line at location, mobile phone, satellite phone, whistle/marine whistle, walkie talkie/UHFr/HF radio, PLB (personal locator beacon) drinking water (students should not share containers) sun safety equipment if outdoors (hat, sunscreen, shirt, shade, etc) appropriate clothing (consider weather conditions if outdoors) injury management procedure (including head injuries where this is a possibility) in place suitable personal protective equipment all equipment and facilities should comply with relevant safety standards. Provide information about activity-specific equipment/facilities: Adequate lighting for dancing and rest areas. Water available Toilets supervised Any unnecessary equipment to be locked away. Governing bodies/associations Guidelines/codes of practice are available for many activities. Refer to the relevant governing body/association, if one exists. If you are organising sporting competitions or events, refer to the Queensland School Sport Unit. Provide information about advice from governing bodies/associations, if relevant: Activity-specific hazards/risks and suggested control measures Consider the potential hazards and risks involved with this activity and implement control measures to minimise these

Queensland Government

	following progressive and sequential skills development
	monitoring student numbers and available space
	adopting sun-safe strategies if outdoors, e.g. scheduling the activity in the early morning/late afternoon; using shaded areas; wearing hats, sun-smart clothing, sunscreen
	referring to the <i>Chemical Hazards in the Curriculum</i> guideline and related <i>Guidance Notes</i> if hazardous substances are being used
	establishing safety zones for the use of equipment, if relevant
	ensuring electrical items are maintained as required, and visually inspected before use
	ensuring that relevant medical/emergency plans and medications are available (insulin, Ventolin®, Epipen®, etc) if students with medical conditions are involved
	referring to Individual Education Plan/Educational Adjustment Plan/Behaviour Management Plan and other student documents
	obtaining advice from relevant advisory visiting teachers or specialist teachers where necessary
	undertaking a risk management process to prevent or minimise the risk of injuries if the activity involves manual tasks
	discouraging the wearing of jewellery or use protective measures (e.g. taping) if jewellery is worn and ensuring that hair and clothing does not interfere with safety
	for sporting activities:
0	assessing the suitability of surface/playing field (loose items, debris, potholes/divots in ground, line markers, or other hazards) and dampness before and during activity, and ensuring that the surface is non-slip, even and firm
0	modifying activities to match the skill and fitness levels of students
0	having appropriate warm-up and warm-down activities
0	continually monitoring students for signs of fatigue and exhaustion
0	ensuring that if spectacles need to be worn during sports activities/matches and training sessions, they have plastic lenses. A band should also hold the spectacles on securely.
	for outdoor activities:
0	assessing weather conditions before and during activity (e.g. temperature, storms)
0	situating activities away from buildings, pedestrians and other activities (as appropriate)
0	checking the site for hazards and implement necessary controls
0	checking the site for poisonous plants/dangerous animals
0	establishing safe, designated areas for people and vehicles
0	considering hazards associated with types of fencing materials, gates and other infrastructure (e.g. barbed

wire, star pickets, electrified fencing, rough timber, uneven terrain) and the risk of students being injured by these materials and conditions.

Provide information about:	
hazards/risks	planned control measures:
 Slippery surface from spills Adequate rest areas Students in view of adults 	 Adequate supervision with security patrols Mop, bucket, broom etc ready to cater for spills Chairs for rest areas

Approval					
Ø	Approved as submitted				
	Approved with the following conditions:				
	□ Not approved for the following reasons:				
By: Pau	l Martin	Designation: Assistant	Principal - Ad	min	
Signed: Date: 09/07/2019					
Once approved, activity details should be entered into the <i>School Curriculum Activity Register</i> by administrative staff.				lo.	
Monito	ring and Review (to be completed during and	/or after the activity.)		Yes	No
Are the control measures still effective?					
Have there been any changes?					
Are further actions required?
